

## THE FUNERAL OF MR. DICKERSON.

He Will Be Buried from Stockton-  
Street Church To-Day.

### CHARGES AGAINST A WOMAN.

**Death of Mr. M. A. Turner in Chesterfield—To Induce Capital to Come to Manchester—Other News from Over the River.**

Manchester Bureau, Richmond Times,  
1112 Main street, Beattie Block.

**News of the sudden death of Mr. R. O. Dickerson, formerly of this city, as printed in the Times yesterday, which occurred while he was in the discharge of his duties as conductor of the Southern Railroads, between Norfolk and Selma, Wednesday night, was received here with profound regret by his scores of friends.**

Mr. Dickerson was a popular man, and had been at work on the branch of the Southern, referred to, for about eighteen months. He was just thirty years of age, and left his wife and one child.

His body was found on top of a car between Wilson and Jumna, and the conductor's verdict was death from heart failure.

The remains were taken charge of by Funeral Director Morrisette and carried to the residence of Mr. J. T. Abbott, No. 291 First Street, and the funeral will be from Stockton-Street Baptist church this afternoon at 2 o'clock.

Dr. Dickerson was last in Manchester about three months ago.

**FUNERAL OF MR. M. A. TURNER.**

Mr. M. A. Turner, a well known citizen of Chesterfield county, living near Peachtree Wednesday afternoon about 5 o'clock in his forty-third year.

The funeral will be from Botham church this afternoon and the interment will be in the church cemetery.

Mr. Turner leaves a widow and six children, as follows: Mrs. J. R. Ozman, Mrs. W. D. Cheatham, Mrs. Frank Barrow, Mrs. Thomas Nunnally, and Messrs. John and Branch Turner, all of Chesterfield county.

### SERIOUS CHARGE.

Mary Bailey, a young colored woman, was arrested yesterday morning on the charge of making away with her newborn child. The charge was brought by Chief Lipscomb, who investigated the case. The woman was attended by Dr. Garnett.

It is believed that the woman killed the child, and the charge of murder was placed against her.

The infant was born on Tuesday, and was in a healthy condition.

The mother is still being investigated, with a view of finding the body. The woman was sent on.

A number of the City Councilmen are considering the advisability of calling upon the body of which they are members to consider the proposed ordinance that is now in the hands of the Finance Committee, conceived for the purpose of investing and offering inducements to outside capital to locate here.

Mease Bent Brothers had, in their store-rooms on Valley street, among other things, a considerable quantity of lime, which they made an attempt to move, but finding the water was about to get into the lime, and that it would not be ready until about twenty-five barrels had been frozen and afterward ashes.

He said that hundreds of tons of spots, hog fish and cracker could be seen lying dead on the shore.

### WILD FOWL TOO.

Wild fowl also, he said, suffered greatly during the storm and hundreds of Red Heads, Black Heads and other ducks, and many wild fowl of unknown species were killed by farmers and fishermen for the sole purpose of securing their feathers for use as bedding. They could not possibly, he said, eat a variety of the game killed.

The wild fowl, made bold by hunger, came ashore in docks and came in many instances right up to the houses along shore.

## THE TUG BOWEN WARNED NOT TO GO

Appalling Loss of Life Due to Captain's Disregard on Injunction.

### STORY OF THE CATASTROPHE.

Hundreds of Tons of Fish and Many Wild Fowl Killed by the Cold in Pamlico Sound — The Natives Kill Birds for Their Feathers.

**NORFOLK, VA., March 9.—Special—** The appalling loss of life on the tug James Bowen, which went down off Hog Island on Tuesday last with eleven crew aboard, has caused much sorrow in New York, where many of the dead may have friends. The tug A. J. Hudson sailed last evening at 11 o'clock to search for the dredge Admiral, which the tug was towing from this port to Philadelphia when the accident occurred. The dredge, valued at \$6,000, is believed to have been lost, and the search is continuing.

TERMINAL COMPANY'S EXPLANATION OF LOSS.—The Terminal Company, in explanation of the loss of the tug, says: "The tug was towing from this port to Philadelphia when the accident occurred. The dredge, valued at \$6,000, is believed to have been lost, and the search is continuing."

TERMINAL COMPANY'S EXPLANATION OF LOSS.—The Terminal Company, in explanation of the loss of the tug, says: "The tug was towing from this port to Philadelphia when the accident occurred. The dredge, valued at \$6,000, is believed to have been lost, and the search is continuing."

SPOT UNKNOWN.

The Bowen was four miles off shore when she sunk, and the spot where she went down is not clearly known even to Captain Charles G. Cannon, of the dredge.

The tug Triton, Captain Chase, which arrived here this morning, passed within a mile or two of the spot where the Admiral was abandoned, at 11 o'clock, yesterday and four hours after the German steamship Alamo took the imperiled crew of the dredge.

It is confidently believed that the A. J. Hudson, which is seeking, will find the Admiral and bring her into port.

TRITON SHORT OF COAL.

The Triton, which towed the barge Enos from Boston to Newport News, arriving at the latter port last night, would have Captain Chase said, gone to seek the dredge, but had on but one ton of coal in her bunkers. She is coaling to day and may go out later.

In the marine district it is said that the Bowen was a tremendously powerful tug with very heavy freeboard. Her engines were very heavy and she was filled with coal for the pull to Philadelphia.

**IGHT OF VG. HENRY S. ED.**

Some time last year her pilot kept her to the wind so she would probably have not suffered, but she it was stated, turned in the trough of the sea when she circled around the dredge to instruct the men aboard it as to their course, and in so doing a sea broke over and engulfed her. She went like a piece of lead to the bottom.

Observer Gray, of the *Weather Bureau*, stated to-day that the captain of the Bowen, who was engaged sailing on Monday, but in no wise follow disregarded the warning and paid for it with his life. Eleven other precious lives also paid penalty for the captain's rashness.

A FISH STORY.

The Yacht Senator, owned by Mr. C. H. Miller of Providence, R. I., arrived here this morning from Pamlico Sound, N. C., where Mr. Miller and party were ducking the large fish to come to move the men aboard it to their course, and in so doing a sea broke over and engulfed her. She went like a piece of lead to the bottom.

Captain Fuller stated to *The Times* reporter that the yacht was in the sound during the big gale and did not have great hardship. He said, however, that it was the lowest end of Pamlico Sound after a narrow of fish which had been frozen and afterward ashes.

He said that hundreds of tons of spots, hog fish and crackers could be seen lying dead on the shore.

The large warehouse of the Scoville Poller Mills contained about three thousand bushels of wheat on the lower floor, and about 8 o'clock Sunday morning a large fire commenced to move the wheat to an upper floor, but in spite of their efforts to save it, about eight hundred bushels were sublimed, and only one hundred barrels of flour.

Mease Bent Brothers had, in their store-rooms on Valley street, among other things, a considerable quantity of lime, which they made an attempt to move, but finding the water was about to get into the lime, and that it would not be ready until about twenty-five barrels had been frozen and afterward ashes.

WILD FOWL TOO.

Wild fowl also, he said, suffered greatly during the storm and hundreds of Red Heads, Black Heads and other ducks, and many wild fowl of unknown species were killed by farmers and fishermen for the sole purpose of securing their feathers for use as bedding. They could not possibly, he said, eat a variety of the game killed.

The wild fowl, made bold by hunger, came ashore in docks and came in many instances right up to the houses along shore.

### DRIFTWOOD FROM THE FLOOD.

Wheat and Flour Flooded at Scottsville.

Damage to Railroad Repaired.

**SCOTTSVILLE, VA., March 9.—Special—**

Considerable damage was done to the railroad near here. The track was washed out from the roadbed in several places and the telegraph line was down east and west, but all telegraphic communication was cut off. A large force is at work repairing the damage.

The large warehouse of the Scoville Poller Mills contained about three thousand bushels of wheat on the lower floor, and about 8 o'clock Sunday morning a large fire commenced to move the wheat to an upper floor, but in spite of their efforts to save it, about eight hundred bushels were sublimed, and only one hundred barrels of flour.

Mease Bent Brothers had, in their store-rooms on Valley street, among other things, a considerable quantity of lime, which they made an attempt to move, but finding the water was about to get into the lime, and that it would not be ready until about twenty-five barrels had been frozen and afterward ashes.

He said that hundreds of tons of spots, hog fish and crackers could be seen lying dead on the shore.

WILD FOWL TOO.

Wild fowl also, he said, suffered greatly during the storm and hundreds of Red Heads, Black Heads and other ducks, and many wild fowl of unknown species were killed by farmers and fishermen for the sole purpose of securing their feathers for use as bedding. They could not possibly, he said, eat a variety of the game killed.

The wild fowl, made bold by hunger, came ashore in docks and came in many instances right up to the houses along shore.
